

Go for Extreme Performance.

EDM's P5, P6 and BB Series DTH Hammers, Parts and Bits are the Best in the Industry.

They are manufactured to provide high quality resulting in long lasting performance. Using the latest in CNC machinery our skilled workers implement exacting standards to construct high quality products with American steel—tempered to our specifications—to insure our products will be the best in the industry. All parts and bits are inspected before leaving our factory to ensure the quality you deserve.

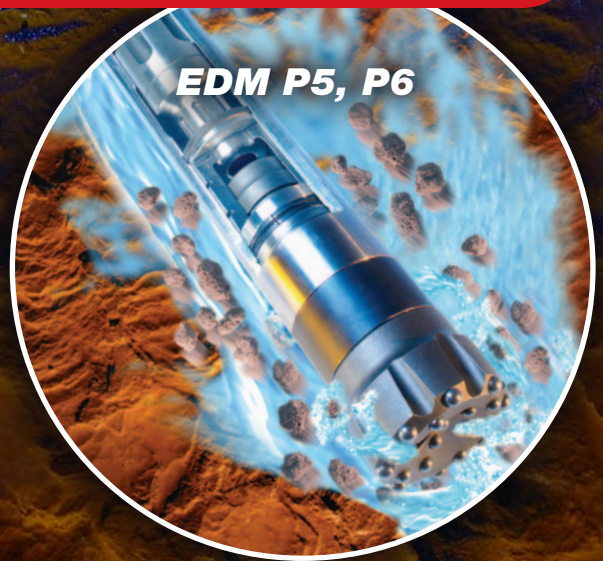

As technology in our industry grows, EDM is dedicated to continuous research and development in order to maintain our performance and ability to be the best.

EDM's reliable hammers and bits allow you to focus on getting your jobs done as quickly and cost efficiently as possible.

Hammers and bits from EDM's vast inventory have been well tested on job sites around the world. They are tough enough for the gas and oil fields, fast enough for the quarries, and long lasting for the water well industry.
